

Scalability & Future Plan

Date	30 SEPTEMBER 2026
Team ID	SWTID-2026-1418
Project Name	FIT BUDDY AI
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Limited number of users	May affect performance when many users access the app simultaneously	High
2	Limited data storage	Large fitness and nutrition records may require more storage	Medium
3	Limited advanced features	Users may need more personalized fitness options	Medium

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports a limited number of users	Use scalable cloud/server infrastructure
2	Data Storage	Stores basic user fitness data	Expand database and cloud storage
3	Performance	Suitable for current usage	Optimize code and database for faster performance
4	Security	Basic user authentication	Add stronger authentication and data protection

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
-------	-------------------------------	-----------------	-----------------

Phase 2	Add personalized workout recommendations	2–3 Months	More customized fitness plans
Phase 3	Add AI-based fitness and nutrition suggestions	3–6 Months	Smarter health guidance
Phase 4	Cloud scaling and mobile app enhancement	6–12 Months	Support more users and improve accessibility
